

NAME: HARRY DAHMS MOSISA NDUMBE

LEVEL: 200

DEPARTMENT: SOFTWARE ENGINEERING

# AIM OF ATTENDING THE LANDMARK BOOT CAMP

My aim for attending the landmark boot camp 2024 is to increase my learning capability and to gain Skills in my chosen field of studies and to learn the diversities of problem solving and a mutual understanding of my field of work and in the evolution of the society, to help myself and the community as a whole with the best I can offer in the digital world.

By acquiring the necessary knowledge and skill with the general exploitation of the problems, the reasons, and the solution that can be implemented in solving these problems, these sacrifice is necessary for me to match and meet up to the standards for my personal gain and that of the community's evolution.
